Conteg Technical Training and Certification Program provides quality training for any current and potential business partners and integrators worldwide. Certification training is given by Conteg's product managers in collaboration with the local sales representatives. This small group training is designed so that each participant gets the most direct communication with an instructor. Conteg uses own facilities and show rooms, as well as recently completed R&D laboratory in Pelhřimov.

Participating in Conteg Certification Training will help to fully understand all details of Conteg's products and data center solutions together with familiarizing oneself with our business strategy. This will help improve your Conteg Total Data Center Solutions selection and implementation processes.

See our web calendar for more information and training dates. Contact your local sales representatives to register.

AVAILABLE CONTEG CERTIFICATES:

CDCS – Conteg Data Center Solutions - For DC designers, Project managers, Professionals responsible for DC implementation

CDCSI – Conteg Data Center Solutions Integrator - For companies whose employees successfully passed CDCS

TRS – Total Rack Solutions - For Sales representatives, Pre-sales, Inside-sales, Installers

CCIP – Conteg Certified Installation Partner – For Installation Companies and Installers

CTSS – CoolTeg Start-up Service - For cooling Professionals

CCSP – Conteg Certified Service Partner - For cooling Professionals
